Yesterday was as calm and pleasant as any in August. Truly, win-ter has deserted us. With the exception of the noise of

tin horns, Christmas was almost as quiet in this city as any other season. An application will be made to the General Assembly to incorporate the town of Kittrells, in Granville county.

Sunday was extremely quiet in this city, all the churches being well at-tended, however, despite the threatening aspect of the weather in the forenoon.

See notice. Don't fail to read the double-column advertisement this morning of Messrs. Julius Lewis & Co. This firm is winning that success which

their energy deserves. The grand Masonic lottery for the benefit of the Oxford Orphan Asylum will come off on the 10th of February. Secure your tickets and en-

reputation, and has become a stan-dard fixture of the age. The hop at the National Hotel last night, given by the Oak City Club, was largely attended and was a most enjoyable affair. It being the last hop of the present year, the belle and

beaux seemed to enjoy it with more than usual zest. The valuable pointer dog, Ponto, belonging to Dr. Pritchard, and often used by R. H. Bradley, Esq., was stolen some week since. Any person leaving information of the same with Mr. R. H. Bradley will be lib-

ROYAL MARRIAGES.—The Rev. Mr. Mangum, of the Edenton Street Methodist Church of this city, has married in his Parsonage, during the present year, three Kings, and as a consequence has been instrumental in making three Queens. CAPT. C. M. COOKE.—Mr. P. H. Winston, Jr., Reading Clerk of the Senate and Editor of the Albemarle Times, in writing to his paper, has this to say of Senator Cooke, of Franklin:

"Senator Cooke is 30 years old, 5 feet 10 inches high and weighs 175 pounds. He married Miss Bettie Person, of Mississippi, has two children, and is a member of the Baptist Church. Mr. Cooke is a lawyer. He church. Mr. Cooke is a lawyer. He left Wake Forest College to go in the army, and was lieutenant and acting adjutant of the 55th Regiment of N. C. troops at the surrender. This is Senator Cooke's first entrance into politics. He increased the Demonstructure of the cookers of the cookers. cratic majority from 50 to 399 in his District. He is Chairman of the Committee on Banks and Currency. and is also a member of the Commit-tee on Judiciary and Corporations. charles Mather Cooke is the son of the late Jones Cooke, a gentleman well known to the people of Middle Carolina as a man of great piety, goodness of heart, and practical wis-dom. Senator Cooke has an unusual-ly brilliant future before him. His own spotless character, his talents, and his large family connection will secure him a position in North Carolina second to that of none, at no distant day.'

COMPANY SHOPS AND THE NORTH CAROLINA RAILROAD.—A correspondent of the Petersburg (Va.) Index-Appeal, under recent date, has the following to say:

"The young people of Company Shops have organized an Amateur Dramatic Association and made their maiden effort last night before a large, select and critical audience, when they rendered "Ten Fights in a Bar Room," reflecting much credit on themselves and affording a source of great enjoyment to their auditors.

"This place is improving. Several new stores and dwelling houses have recently been constructed, and others will soon be completed. The Railroad Company has just completed a new depot building on the site of their old one, which was destroyed by fire in April last.

The North Carolina division of of January. See notice in another the Richmond & Danville Railroad, under the efficient management of under the efficient management of its gentlemanly Master of Transportation, has done an immense busi-ness this season both in the way of may congratulate themselves on hav-ing retained his services. He is the 'right man in the right place'."

CHRISTMAS IN RALEIGH.-Wedo not remember to have ever seen a more quiet Christmas than the one that has just passed. The usual Christmas presents were given and received, and many a youthful heart in our midst was made glad by the visit of Santa Claus with his myriad of good things, and we saw many aglass of egg-nogg disposed of early in the morning; but aside from these and the eternal or "infernal" horn that could be heard from every quarter, the day seemed nothing more than usual. Many of the stores and business places were closed, and the ma-jority of our citizens doubtless spent the day with their families. We have not a casualty of the least character to report as the result of the passage

And thus this ever joyous season has come and gone, another year has passed, oh, how swiftly! and we are just entering on the threshold of a new year that may be fraught with much joy or misery to each and all

THE WILDMAN TROUPE. - This popular Company will perform in Tucker Hall on Thursday, Friday and Saturday nights. They have been recently performing at Wil-mington, and the Star has this to say of them:

of them: "An overflowing house greeted the "An overflowing house greeted the third performance of the New York Comedy Company at the Opera House last night. Mr. F. J. Wildman, in the title-role of "Rip Van Winkle," did full justice to his part, and the ever charming, vivacious and sprightly Miss Clara Wildman, in the part of "Hendrick Vedder," richly merited the plaudits she received, and merited the plaudits she received, and the success of the performance was decided by the admirable support given by the rest of the company. The entertainment closed with an overture by the fine orchestra of F. Steubgen, and Miss Wildman won fresh laurels as a songstress, being frequently recalled by a highly delighted audience."

A CHRISTMAS NUISANCE.-Many of our citizens will endorse the fol-lowing from the editor of the Peters-

burg Index-Appeal: "The man who invented horns deserves to have his brains blown out, if, indeed, he can lay claim to any of that cheap commodity. We incline to the belief that it was one of the concoctions of the gentleman in black who, envying mortals the blessed festival of Christmas, introduced horns in various and divers shapes to rob them of that blessing. Two varieties seem to be most popular: one peculiar to infantile lips, the other to manly palates, and if, as we suspect, the aforesaid gentleman in black did invent them, he must have been filled with gleeful satisfaction when he looked out last Friday and saw how well his invention was working his purposes in Peter Jones' bali-wick."

NOTICE TO SUBSCRIBERS.—On the Closing Exercises of Carey High

The following communication from Carey, under date of 25th inst., gives an interesting account of a most pleasant affair in connection with the High School at that place:

Editors News: I had the pleasure last evening of attending the closing exercises of Carey High School, Wake county, N. C. I know you have the education of our young people at heart, and forthis reason claim a portion of one column of your yety

ple at heart, and for this reason claim a portion of one column of your very valuable paper. I do not know it will be amiss to say Carey, N. C., is better located than any town in the State for a school of high grade. It is in eight miles of the Capital of the State, has the advantages of two railroads, the North Carolina and Augusta Air-Line, and beyond this no more pure or mor al beyond this no more pure or moral atmosphere is inhaled in this or any other State. The Principal, Rev. Jesse Page, is a man of very rare at-tainments, is a perfect pattern of a tainments, is a perfect pattern of a North Carolina gentleman, native born and a pure, unadulterated christian, and a citizen of Wake. He is assisted by Miss Riddick—a more accomplished and praiseworthy lady is not in the confires of the State.

Now, to the closing exercises. This was the last day of the session, and the Principal concluded to have declamation, music, &c., in the way of a concert.

in the way of a concert. The exercises was opened by prayer from Rev. R. H. Bobbitt, who invoked the throne of grace in behalf of the Carey School. It would make this article too long to enumerate all the different exercises that were gone through, and for that reason we will mrough, and for that reason we will say the audience was welcomed by Miss Lou Page, eight years of age, who was followed by Miss Alice Guess, about the same age. Sixteen year old girls, in many places, cannot surpass them. This was followed by music, waltzes, polkas, etc., etc. music, waltzes, polkas, etc., etc.,— Christmas bells, Come where my love lies dreaming, Mazeppa waltz, moonlight and starlight spring flowers, polka, etc., etc., too numerous to mention. The declamation on the part of the boys was from J. R. Page, Carey; Masters Pleasants and Guess, Carey; Masters Fleasants and Guess, Carey; J. B. Jordan, Carey; Alex. Long, Salisbury, N. C., and others. One very pleasant part of the Concert was from Ham C. Long, of Salisbury, whose lot it was to speak of vacation and the manner and mode of treatment the young ladies would receiveduring vacation, tied to the strings of their mothers,

etc. He was replied to by Miss Yates on the part of the young ladies, who acted her part nobly.

Stock will tell, and the master effort of the occasion was from Frank Hay-wood, Raleigh. His theme was, No excellence without labor. The reputation (and deservedly high it is) of the Badgers, Haywoods and Joyners, did not suffer in the hands of this lad of only eleven summers. His manner was graceful, and to sum it manner was graceful, and to sum it all in a nutshell, he will make his mark yet. Everything went off pleasantly, every patron of the school delighted with the very decided improvement of their children.

Were I to close without saying the Misses Page, Bobbitt, Jones, Guess,

and others made most elegant music, would not be doing justice to them. Carey is above all places in North Carolina, the place to educate your boys and girls-free from vice and temptation, healthy and of easy ac-Yours,

BOSTON. RECOVERED HIS MARE.—It will be remembered that some three months since Mr. A. G. Jones, one of the County Commissioners of Wake, had stolen from him a fine bay mare which he had hitched in the yard of Messrs. Yearby & Rogers, of this city. All search for the mare, which Mr. Jones valued very highly, proved fruitless, and Mr. Jones gave up all hope. But recently he received a clew through a rogue in the Hillsboro jail, and following this up, he passed Danville and Lynchburg, Va., and finally reached Rocky Mount, Franklin county, Va., where he found his mare in the possession of a gentleman, she having changed hands several times. And now Mr. Jones is the ral times. And now Mr. Jones is the fortunate possessor again of his mare.

DEATH OF A GOOD CONSERVATIVE NEGRO. - Wm. Alex. Long, generally known as Alex. Carter, some 55 years of age, a respected negro man of Hillsboro, died in that place on Saturday last. He was formerly a servant of Rev. M. A. Curtis, of Hillsboro. The deceased has been a strong Conservative ever since the late war, and was greatly respected by the whites, as well as the blacks, of his town. His funeral exercises were paid by the young men of Hillsboro, and his remains were attended to the grave by a large number of both whites and blacks.

ELECTION OF OFFICERS.—At the regular meeting of Raleigh Lodge, No. 65, I. O. O. F., held last night, the following officers were elected for

the ensuing term: J. B. Hill, N. G. H. T. Coley, V. G. L. N. Keith, R. S.

A. A. Green, F. S. J. C. Brewster, Treasurer. As the election of officers for Man-teo Lodge, No. 8, I. O. O. F. will take place this evening (Tuesday) at 7 o'clock, a full attendance is desired.

RALEIGH GIRLS AHEAD.—We are much pleased to see that the first premiums for embroidery at the Cape Fear Agricultural Fair at Wilmington, was awarded to Miss Lida Mer-rill and Miss Maggie Merrill, of this city. One took the premium for the best embroidery by a girl under fif-teen years, and the other the premium for the best embroidery by a girl under thirteen. They are the daugh-ters of our friend Samuel Merrill, and have each heretofore received several premiums on their handiwork.

BALL AT THE FEDERAL CAMP .-Company "G" U. S. Artillery, sta-tioned at the camp in this city, had a party in their barracks on Christmas-eve night. The dancing room had been most beautifully arranged and the supper tables were ladened with enough good things to cheer the heart of both soldier and civilian. DEDICATION OF A NEW MASONIC LODGE IN CHARLOTTE.—Deputy Grand Master John Nichols and

Grand Secretary Donald Bain were in Charlotte yesterday, for the purpose of dedicating the new Masonic Lodge in that city and of installing the officers of the said Lodge.

DEATH OF "THE OLDEST INHABI-TANT."—A valued correspondent at Lenoir sends us the following items:

"Aunt Clary," well known to the many friends of the late General S. F. Patterson, died at Palmyra, near Lenoit, in Caldwell county, N. C., on December 23d, 1874.

From a memorandum handed to the writer by Gen. Patterson, it on the writer by Gen. Patterson, it ap-pears that she was a well grown girl at the commencement of the Revolutionary War. She was born and raised near Fredericksburg, Va. When Gen. Patterson moved to Palmyra in January 1845, she was found there among the superannuated slaves of the late Gen. Edmund Jones. Some pains were taken to establish her exact age at that time, and from the age of her children and other circumstances. it was fixed at

and from the age of her children and other circumstances, it was fixed at 87. This would fix the year 1758 as that of her birth, making her in her one hundred and seventeenth year at the time of her death. She had lived in this State since her thirty-sixth year. She had a distinct remembrance of the raising of troops for the war with England in 1778, and to within a few years of her death could give an intelligent account of the matters connected therewith.

Lenoir, N. C., Dec. 25th, 1874.

THE MAYOR'S COURT.—This Court, which at this season of the year is usually prolific with items, has not been able to produce a single one since the beginning of the holidays. Oh, moral Raleigh! A slight scrimmage case was heard yesterday morning, but nobody was hurt, and hence we will not report it. we will not report it.

WILL ARRIVE THIS EVENING. The remains of the late Col. John Manly, who recently died in New York city, will arrive in this city this afternoon by the Raleigh & Gaston train, for interment. We learn that quite a number of the friends of the family and of the deceased will meet them et the deceased will meet them at the depot.

WILL REMOVE HIS FAMILY TO RALEIGH.—Col. S. D. Pool, who be-came Superintendent of Public In-struction on the 20th of November, will remove his family to Raleigh next week. He will doubtless make Raleigh his home permanently, his two magazines becoming permanent institutions.

DEATH OF MR. JOHN R. HARRIson.—We regret to announce the death, on Saturday last, of Mr. Jno. R. Harrison, an aged and respected citizen of Raleigh. An obituary notice, published in another column, gives a brief, but correct history of the life of the deceased.

AN IMPORTANT CHANGE. -Several changes have recently been made in the schedule of the North Carolina road, which changes will be found in the published schedule. The trains going East now reaches Raleigh at

OBITUARY.

OBITUARY,

HARRISON.—Died, in this city, on Saturday, the 25th inst., John R. Harrison, Esq. Mr. Harrison was one of our oldest citizens. He had seen much of Raieigh grow up around him, with its public buildings and improvements and he had been himself, as a practical business man, one of the promoters of these improvements. He was not an aspirant for public place, but has held several offices of itrust, in which he acquitted himself well. He was one of the most useful and practical of Railroad Directors under the two State administrations preceding the present one; and as a Director of the State Penitentiary, and for a time President of the Board, he won general commendation for the close attention which he gave to his duties, and the practical wisdom with which those duties were discharged. He was a man of steriling and incorruptible integrity, both in public and private life. Of him it may emphatically be said, "agood name is better than riches." He was candid in his disposition, frank and fearless in his nature, a faithful friend and a good neighbor. Mr. Harrison was a member of the Baptist church in Raieigh, at the time of his death, and was also an earnest worker in the Sunday School and in the Temperance cause. His end was peace. The friends who stood around him during his last hours, realized indeed that

Tax question of Spiritualism, and its phenomena called materialization, is again creating a good deal of attention throughout the North. The recent exposure of Mr. ROBERT DALE OWEN has awakened this new interest in a question that has virtually set so many people crazy within the last few years.

THE Greenville (Pitt county) Register says: "From present appearances the question of convention or no convention will doubtless be submitted to the people of this State very soon." And there's where you make a mistake, neighbor. The question is not to be submitted to the people at all, the Legislature having the power within itself to call a Convention.

WE give up much of our editorial space this morning to the interesting letter recently written by Col-WM. JOHNSTOM, of Charlotte, upon the finance question, regretting that the crowded condition of our columns would not allow us to use it sooner. The writer deals upon a subject of immediate importance to the people of North Carolina and the whole country.

Indications are, says the Petersburg Index, that we shall have du. ring the present session of Congress very little legislation for the public good, and no end of legislation for party good. So far the attention of the majority has been absorbed in devising ways and means to recover to the Republican party the advantage lost in the fall elections, and to acquire strength for the approaching Presidential struggle. The civil rights bill, in the present tone of sentiment North and West, is an experiment that will hardly be ventured upon, and may, indeed, be considered practically abandoned, unlers the majority should allow their malevolence to get the better of the obvious dictates of good

Ir seems that the Returning Board in Louisiana has committed the infamous outrage upon the people of that State of counting in Republican members of the Legislature upon the most frivolous pretext, throwing out Democrats who were elected under the very eyes of the Federal officials who were stationed throughout the State; and what is worse, Washington advices say this damnable infamy is to be endorsed by the man who presides at the White House.

Gov. McEnery, in a dispatch to the New York Herald, under date

of the 25th instant, says: "The wrong just perpetrated by the Returning Board against the people of Louisiana; and which vi-tally threatens the safety and integ-rity of Republican institutions in the United States, is a more crowning infamy than the actions of the Lynch raturning board, and surpasses even the midnight order of Durell, and would not be submitted to by any free people. Resistance to the national authority, represented here by a large portion of the army and a naval fleet, sustaining a usurpation and stifling the voices of the people, has stifling the voices of the people, has never been meditated.
(Signed) JOHN McENERY."

A Washington dispatch of Satur-

day says : "There is much idle gossip here about Terry or Sheridan being sent to New Orleans. General Emory is said to deserve the confidence of the President. He has been ordered to sustain and will sustain the Kellogg rule. It may be said, however, that General Emory's soldiers are not expected to interfere in street broils."

Says the Tarboro Enquirer-Southerner:

"The Convention question is gain-ing ground, and we doubt not when State Democratic Executive Committee meets, as it has appointed to do, on the 20th of January, it will see that the people demand a change in their Constitution, and will in-struct our Representatives in the Legislature to call a Convention at once. It ought to have been done three weeks ago."

THE last number of the Tarboro Enquirer-Southerner announces the sale of that paper by Mr. E. R. STAMPS to Messrs. JAMES G. CHARLES and WALTER P. WILLIAMSON, the contract to take effect on the 1st of January, both old newspaper men. Says Mr. STAMPS in retiring: "My former patrons, and the friends generally of the paper, need feel no uneasiness, but rest assured, that in yielding up the Enquirer-Southerner into other hands, I have carefully guarded their interests." We extend Messrs. CHARLES and WIL-LIAMSON a welcome in advance.

THE FINANCIAL QUESTION. Letter From Colonel William Johnston, of Charlotte, N. C., to Joseph P. Kilbreth, Esq., of Cincinnati, Ohio.

CHARLOTTE, N. C., Nov. 3, '74. Joseph P. Kildreth, Cincinnati, Ohio: DEAR SIR:—Impressed with the financial views given to the public last fall, by Mr. London, of New York, in relation to the Exchequer, and with the views expressed by you recently in conversation relative to the present financial system of our Government, I am induced to submit to you some suggestions on the sub-ject so important to our entire coun-

try.
It is known that the present banking system had its origin in the necessities of the Government pendnecessities of the Government pending the civil strife then unhappily existing. It was born of war and adopted as a forced loan to save the life of the nation. By excessive taxation on all other modes of banking, it forced the monied capital of the country to purshase the national bonds as a basis of banking, and thus absorb the plethora of currency. Its adoption may have been a wise measure for a state of war then existing. ure for a state of war then existing. It placed the circulating medium of he country on Government credit instead of gold and silver-the then basis of the currency—and doubtless brought a large monetary interest to support of the Administration in its efforts to restore the Union. It possesses two good features: that its notes are safe, and of uniform value over the country. But the legal-tenders possess both these attributes in a higher degree, and give all the value and security that the National

bank note can. Whatever may have been the origin of the present banking system or ts adaptation to the necessities existing then, it is wholly unsuited to the present requirements of the country in times of peace. The objections to it may be briefly stated: First, it is based on credit—which is always fluctuating—instead of gold and silver, the only recognized substratum of the currency in all commercial countries. Second, the entire scheme s the agent and child of the Federal Government, with its two thousand from which it should be divorced as soon as possible, consistent with the public interest. The Executive literally controls

THE PURSE AND THE SWORD -contrary to the theory of Republican institutions. Fourth, it is too expensive and onerous to the people. They pay annually in gold \$24,000,000, the interest on \$400,000,000 of bonds held by the National banks, which goes into their coffers. Thus evying \$24,000,000 in gold on the industries of the country to pay the National banks to issue about \$300,-0.0,000 of their notes for which they charge the borrower from twelve to twenty-four per centum per annum in the South and West. This is in addition to the expenses of the Comptroller of the Currency, with his bureau of officers, clerks, detectives, bank examiners, etc. Certainly it is the most expensive system of finance ever established and maintained in time of peace by any nation. The Government actually compels the people to pay to these National banks a premium or bonus of 6 per cent. in gold annually on their capital, and permits them to charge for their loans extortionate rates of interest, when indispensable to labor and capital. Sixth. It furnishes a currency fluctuating in value and so restricted and limited by law as to be unable to meet the wants and necessities of the country. Government credit is like that of corporations and individuals. It is affected by the discontent of the governed, by mal-administration, by civil wars, kc. Seventh. More than half the &c. Seventh. More than half the entire currency is borrowed from the people by the General Government instead of being loaned to them, thus reversing the primary principle upon which paper currency should be issued. Eighth. The existing system is an absolute monopoly, limited in amount by law, sustained by taxation of nearly all other interests, while its \$400,000,000 of bonds are entirely exempt. It taxes the great tirely exempt. It taxes the great agricultural, commercial, manufacturing and mechanical interests ab libitum for the loan of its notes. And

why? Because it has AN ABSOLUTE MONOPOLY of the circulating media. This bank currency amounts to \$382,000,000, legal tender notes to \$366,000,000, fractional currency to \$47,000,000—ma-king in all \$795,000,000, less the reserve required by law, leaves us in all less than \$680,000,000 of currency to supply the entire com-mercial demands. This sum includes the few State bank notes and seven-thirty notes, say about \$350,000, still outstanding. Be-fore the war the entire bankcapital of the States was \$620,000,000; a majority of these banks had the chartered right to issue three to one in gold or its equivalent, and a great portion of the year had in circulation \$1,200,000,000 of their notes to supply the actual demands of our produc-tions. This was from November until May, when the agriculturol pro-ductions of the South and West had to find their markets at our seaports. During this period we require fifty per centum more of currency than is needed for the balance of the year. The productions and values then were far short of what they now are by at at least 50 per cent., especially when we recollect that values are now measured by a currency depreciated 10 per cent. less than gold. If that was a normal condition of our cur-

rency to property and production, or population, it is manifest that the

country requires now 50 per centum more of currency than in 1860. Many intelligent gentlemen are not

aware of the extent to which contraction has been carried by Congress since 1865. From the report of the Secretary of the Treasury, of August, 1865, and the Finance report of 1867, there were of legal-tender notes \$33,-000,000, compound interest notes \$217,000,000, seven-thirties \$830,000,-000, United States legal-tender notes \$433,099,999, fractional currency \$107,-000,000, certificates of indebtedness \$85,000,000, cash in the treasury \$88,000,000, making in all \$1,793,000, 000 of Government paper then used as circulation. Add the National bank notes then in circulation,\$13,452,000, and State Bank notes, \$240,000,000, and we have a total circulation then of \$2,164,452,000, or more than three times the entire

CIRCULATION NOW IN EXISTENCE." This shows a reduction of the obligations of the Government circulated as currency in eight years of about \$1,500,000,000, or annual reduction for eight years of about \$190,000,000. This vast dimunition has been chiefly absorbed in United States bonds. Was such a contraction ever known in the history of finance? It is unexampled! And this contraction going on while eleven States, wholly destitute of any currency, were being restored to the Union and had to be supplied de novo. Thus we see the currency reduced from over two billions in eight years to less than onethird that amount, while eleven States entirely destitute were rapidly absorbing their quota of that in cir-The Hon. John M. Bright, of Ten-

nessee, in his very able speech on this subject made in the last Congress (and from which some of these sta-tistics are derived,) places the entire circulating media of the country at 631,488,000. He then adds "this is spread over illimitable territory; to distribute among fifty-five millions of people; to furnish money for sales of capital or wealth amounting to \$40,000,000,000; to pay National, State, county, city, corporation, and individual indebtedness, amounting to over \$9,000,000,000; to pay for the marketable proportion of annual productions of all sorts, \$10,000,000,0000; to pay taxation, United States, State, county and town, \$611,000,000; to pay interest on the public and private debt, \$500,000,000; to pay for the annual construction and operation of rail-roads, \$100,000,000; to pay for annual imports into the United States, \$642,-000,000; to pay for the support of schools, colleges, churches, newspa-pers, for building houses and towns, founding new States, and to pay for the personal expenses of the millions that move every day upon the rail-roads and public thoroughfares, \$500,000,000 more." This is

A VAST SUPERSTRUCTURE to be supported by such a narrow financial base. It is like an inverted pyramid resting upon its apex. To contemplate its proportions makes us giddy. This \$631,000,000 of depreciated paper currency is supporting a colossal credit structure, resting mainly upon it, the mere figures of which appal us as do those of the distances of the stars from the earth, As this financial column is ever

toppling by the wants of the great producing interests of the country pulling it in different directions not surprising that we should be visited periodically by money panics. The fact that the country has to construct such a credit system upon so narrow and unstable a foundation, is the highest evidence of its entire failure to meet the wants of our national interests. Had General Andrew Jackson lived to the present day, he would have modified the opinion attributed to him "that those who trade on credit ought to break." As we have no money for six months in the year in the South, credit is then our chief reliance. This results not so much from the want of means of property. ut from the destitution of currency in the country. For six months of the year the United States require double the currency now in circulation, and at no time should there be less than \$1,000,000,000 in circulation to supply the actual wants of the labor and growing industries of all the States. In 1860, North Carolina, under the old State Bank system, had \$6,000,000 of bank capital. Then banks had the right to issue three for one in gold or its equivalent (sight exchange on New York being regarded as the equivalent). They often had in circulation two for one, and nence could furnish safely \$12,000,-000 of thier notes. Now we have less than \$2,000,000 invested in National banks, which cannot issue mors than \$1,500,000 of their notes, or less than two dollars per capita. South Carolina had \$10,000,000 or \$12,000,000 of bank capital, with the right to issue three to one, and now can issue only about \$2 per capita, and so with many other Southern States. Then

THE RATE OF INTEREST was 6 per centum in North Carolina and 7 in South Carolina, and panies were much less frequent than they have been since September, 1869. Money, like other commodities, governed by the law of supply and demand. Eighteen and 24 per centum per annum must show a very great destitution in the land. How can a

country prosper under such restrictions and monopolies? Hence the thousands of young men now mere aborers and clerks, who, could they borrow at reasonable rates some cash would establish a saw mill, grist mill, tannery, or farm, and thus develop the many and varied industries of the country, giving demand for more labor and yielding a greater revenue to county, city and State treasuries. But one of the worst features incident to this system is its want of flexibility. So parsimonious and limited is the present circulation, and so entirely monopolized by the banks, that its credit is up to the utmost tension in the dull months of the year, at ruinous rates of interest, and cannot be controlled when needed even to move the produce. Such is the tension that the combination of a few capitalists in Wall street on five millions advanced can lock fifty or one hundred millions at any time and produce a panic. Then the monopolists purchase the crops and pro-ductions of the toiling millions at their own price. While we had currency sufficient for the wants of the country before 1869 we had panic. In September, 1869, the first great monetary crisis occurred. Then contraction began to do its work o mischief. The panic of 1873 (just when the productions of the South and West began to go to market) depressed the price of cotton at least four cents per pound. This on a cotton crop of four millions bales caused a loss to Southern planters of

over \$66,000,000 on one article of production alone. Thus the PROFITS OF AGRICULTURAL LABOR are lost to the producers and go into the pockets of speculators and for-eigners. As with cotton, so with the various other agricultural and manufactured productions.

When it is recollected that many

of the bondholders (including the banks) purchased their government bonds in a currency so depreciated as to make them cost not exceeding fifty dollars in gold on the one hundred, and they can sell them now for 106 in gold; and that the Congress of 1869 declared the principal of a large portion of these bonds to be payable in gold as well as the coupons, when the face of the bond did notso specify thereby adding over one hundred millions dollars to the public debt and when the President vetoes a bill intended to enlarge the volume of currency (a measure demanded by the country) for fear the banks may not be able to fully repay themselves for their patriotism in purchasing these bonds during the war at fifty cents on the dollar; and when we recollect all the safeguards and protection extended to these institutions—their rights in all the States, excessive rates of interest charged, twenty-four million dollars in gold is paid in taxes by the people to enabl them to issue one-fourth of the currency actually required by the country for legitimate business pursuits, with their four hundred millions of bonds exempted from all taxationit is time for all other classes to begin to inquire if a monied olligarchy is not lastened on the Government,

By this favored class-legislation, the currency was four years since within ten per cent. of specie. It has made no further advance in that direction, since no legislation has been dopted to bring about such a result, except the low pressure system of contraction, by which hundreds of thousands of good business men have been bankrupted. No amount of pressure, no stress of legislative enactments, can ever make a paper dol-lar issued on Government credit equal at all times to a gold dollar. Were they receivable for all govern-ment dues their value would of course be enhanced. Money is valuable in proportion to the uses to which it can be assigned. When it cannot be used a maritime league from our shores its circulation is necessarily limited. The entire system should be changed and adapted to the wants of a great and growing country. The people demand this. They demand more money, lower rates of interest, and no more monopolies.

and does not rule the country?

BANKING ON GOVERNMENT BONDS will not meet the public require-ments. If the volume of currency was entirely unrestricted by law, it might improve the present plan. But with the limitations proposed, the bonds at 116 and the reserves required to be withheld from circulation, it would only make contraction doubly injurious.

In preference to maintaining the present system, Congress might permit the National banks to gradually return their notes and close out if they desire; or bank on legal-tenders; and meet the necessities of commerce and trade by issuing a sufficiency of legal-tenders, and repeal or modify the acts prohibiting or taxing out o existence Sta'e banks. The legaltenders would be equally as good and sound as bank notes and less expen

Or, since the right to establish banks by the Federal Government seems to be acquiesced in, let it charter private banks on a specie basis to the amount of \$50,000,000 for each succeeding year until the demand is met, with the right to issue two to one and thus gradually return to a specie basis without a shock to industries, or impairing the obligations of contracts. This would invite and keep specie in the country, and gradually pave the way to its resumption. The act should authorize any National bank to return its notes, take up its bonds and organize on a specie basis—alway maintaining a sufficient circulation to meet commercial wants by means

of legal-tenders. More money we must have. In the cotton States, property of all kinds, lands, bonds, stocks and chattels, are now greatly below the prices of 1865-'66. The shrinkage of all values going on in the South since 1868 is alarming under this cruel con-traction of the New England States, with their \$6,000,000 more of bank capital than their quota, and the end is not yet. This unwise contraction and unjust distribution of money is daily making "the rich richer and the poor poorer." The profits and fruits of the toiling millions are going into the coffers of the capitalists and monopolists.

I have the honor to remain, Very truly yours, WM. JOHNSTON.

This well established Company was organized in 1889. It has issued about 5000 policies, and has paid in death claims more than \$300,000. Its RESERVE secured for policy-holders, last July amounted to \$400,000; leaving a surplus of \$212,000. Public attention is called to the fact that for every \$100 of ilabilities, it has \$142 of assets. This unparallelled success should commend it to the people of this State.

Besides, it has deposited \$150,000 for the exclusive benefit of policy-holders; and it now proposes to establish a local Board, and make loans on real estate security.

It takes insurance on all the approved plans, with but few if any restrictions.

BRADLEY'S PATENT MADE FROM

From Prot. W. G. Simmons, Wake Forest College, North Carolina. WAKE FOREST COLLEGE, N. C., October 4, 1873. Mr. C. P. Knight—Dear Sir: We have for several months been using your Bradley's Patent Enamel Patent on our College Building, and are well pleased with it. Though it was applied by one having no experience in such work, yet we have a good job. We shall continue to use it—believing that in polut of economy, durability and facility of application, it is superior to any other pigment offered in the market.

W. G. SIMMONS.

READ THE FOLLOWING TESTIMONIALS:

From Messrs. Engelhard & Saunders. Editors and Proprietors Journal.

We desire to call especial attention to the advertisement of "Bradley's Patent Ename! Paint." We can recommend it from a knowledge of its merits. Some of the employees of this office having purchased some of this paint from Mr. C. P. Knight, of Baitimore, have us dit and speak in the highest terms of it, after a trial of several months. While it is as durable as ordinary paint, it has a much ther finish, and its cost and convenience will recommend it to all in need of paint. From S. McGill, M. D. The Plains, Faquier Co., va., Feb. 6, 1873.

Mr. C. P. Knight—Hir: The paint came safe to hand as ordered, 2 kers, 5 gallon each, and 3 buckets, I gallon each. As practice was sleek, I dli the job myself. Two weeks (not constant work) completent is house, two coats; the last coat I applied thick, and it is now generally conceded that, for "ename!," like mariness, and body and harmony of colors, there is not a handsomer job in the place. I have saved sixty-five dollars by the operation—which is an item just now with the Southern people. It should be generally adopted in this State. Any country lad can apply it. I have never dabled in such stock as "testimonials," but I feel so forcibly the great adaptability of your "Enamel Paint" to the wants of our people—in excellency of material, in ceanty of color, and in the fact of its being "ready mixed," that I give you permission (if it is desirable to you) to make what use you think proper of this letter.

Very respectfully and truly,

S. M.GILL, M. D.

A RESTORATIVE

The Best Hair Dressing Ever Known. READ! READ! READ From Rev. Dr. Baird. Secretary Board of Publication The Xanthine is the only hair dressing have ever used which removed the dandruff from the se p and made my hair soft and pliable. It has also restored my hair to its original color, and by occasionally using it as a dressing I have no doubt will preserve the color. E. T. BAIRD. Richmond, Va., July 27, 1874.

CHARLOTTESVILLE, VA., June 12, 1874. CHARLOTTESVILLE, VA., June 12, 1878.

Dear Sir:—I have used the Xanthine for one year, and find it answers the purpose it is prepared for. I had used other preparations for the same purpose, viz: the restoration of the hair to the natural color; but was compeled to abandon them, because they affected my system, gave me rheumatism and neuralgia. Xanthine, however, has not had this effect; on the contrary, has been beneficial in this respect. Hoping that you may be successful in its sale.
